shredding

My Dahle. Since 1930.

DAHLE

A Strong Brand – A Strong Technology.

Reliable products since 1930.

1930

Founded by Wilhelm Dahle
on 1st April 1930

1988

Start of production in
Roedental on 65.000 sqm

2002

Dahle becomes part of the emco Group,
development of the first
ShredMATIC® Autofeed concept

1984

Production start of shredders

1990

Dahle launches the first
deskside shredder for 400 DM

Launch of the first 'top
secret' shredders with a
particle size of 1 x 4.7 mm

Dahle: Product quality since 1930 – Tradition, power and innovation!

Since 1930, Dahle products support your daily office work: from the very beginning, Dahle is a synonym for high innovative strength. We ease your work flow with our powerful products and our high quality demands. Dahle develops and produces. New technologies help to make Dahle products even more precise and more safe. Powerful, high-quality and durable products: That's our tradition.

**GERMAN
ENGINEERING**
BY DAHLE

2015

Launch of MHP technology – up to 40 % more powerful and remarkably quiet thanks to innovative cutting cylinders

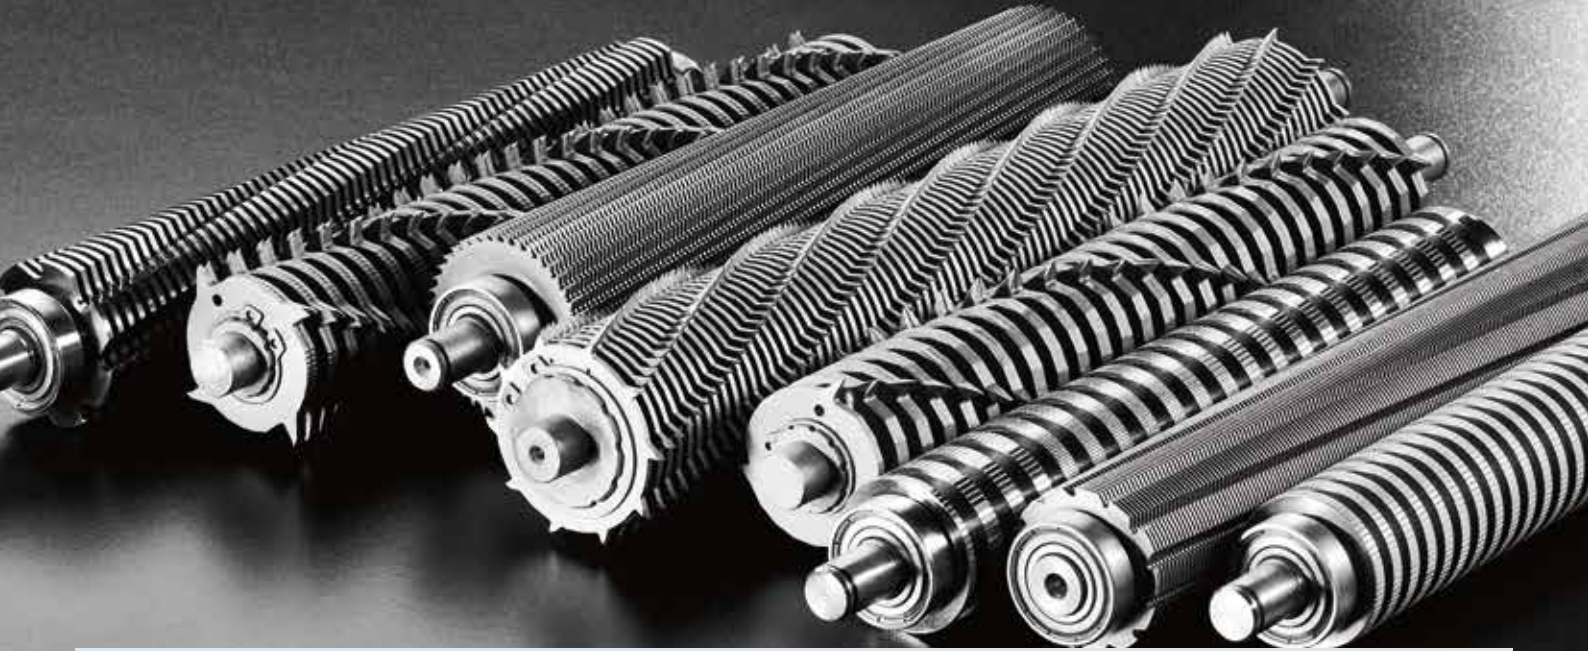

2010

Dahle CleanTEC® shredders are equipped with an automatic oiler and a fine dust filter

2018

ShredMATIC®
launch of the Autofeed shredder range

Technical features that make shredding an easy job

Why Dahle

Variety of models

Comprehensive selection of devices
with volumes from 30 l to 190 l

DAHLE CleanTEC®

Unique DAHLE CleanTEC® filter system
in the "air" devices

Electronic start and stop function

Automatic start-up thanks to integrated
light barrier

Convenient automatic reverse function

The automatic reverse function ensures that
jammed paper is removed from the cutting unit
when the motor shuts down

Automatic motor shut down

The motor cuts out automatically in case
of paper jam

Energy-saving

Automatic stop after 30 minutes of inactivity

Waste container

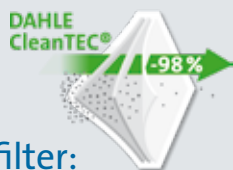

Separate CD feed and waste container for devices
with CD / card shredding

Extras

10 strong waste bags
(5 waste bags included with VOLUME PRO)

We pay great attention to utmost quality of both material and workmanship to guarantee ready for use machines at any time. Dahle branded products are synonymous with longevity and reliability. That is why we are convinced from the quality of our products.

This is guaranteed for all our professional Dahle shredders and we give a 35 years' warranty on the cutting cylinders!

CleanTEC® fine dust filter:

- Fine dust particles picked up directly above the cutting cylinders
- Volume of particles in the room reduced by 98 %

Drive chain (models bigger than 140l):

- Reliable, trouble-free transmission of power from the motor to the cutting cylinders

Cutting cylinders:

- Durable and trouble-free thanks to the steel cutting cylinders
- Dahle offers a 35-year guarantee

Motor protected from overheating:

- The device automatically switches off before overheating thanks to an integrated thermal switch
- Selected devices are also available for continuous mode

Wooden cabinet with casters:

- Robust and high-quality
- The timeless design blends perfectly into any office environment

Automatic oiler:

- Low-maintenance operation
- SECURITY devices with CleanTEC® are equipped with an automatic oiler

Please note:

- WASTE, WASTE PRO, OFFICE and PaperSAFE® devices are completely oil-free
- SECURITY devices without CleanTEC® are oiled manually

Vibration damper:

- Our document shredders are some of the most quiet devices in the world thanks to the use of vibration dampers in combination with the wooden cabinet

Protection against fine dust – **DAHLE CleanTEC®**

Fine dust poses a health risk not only in road traffic but also in the office. Photocopiers, laser printers and fax machines are known sources of fine dust – also document shredders produce particles which get into the lungs while breathing.

DAHLE CleanTEC® document shredders are equipped with an innovative fine dust filtration system: More than 98% of fine dust is collected directly at its point of origin – above the cutters – and fed through a closed system into the filter on the rear side of the shredder where it is permanently bound.

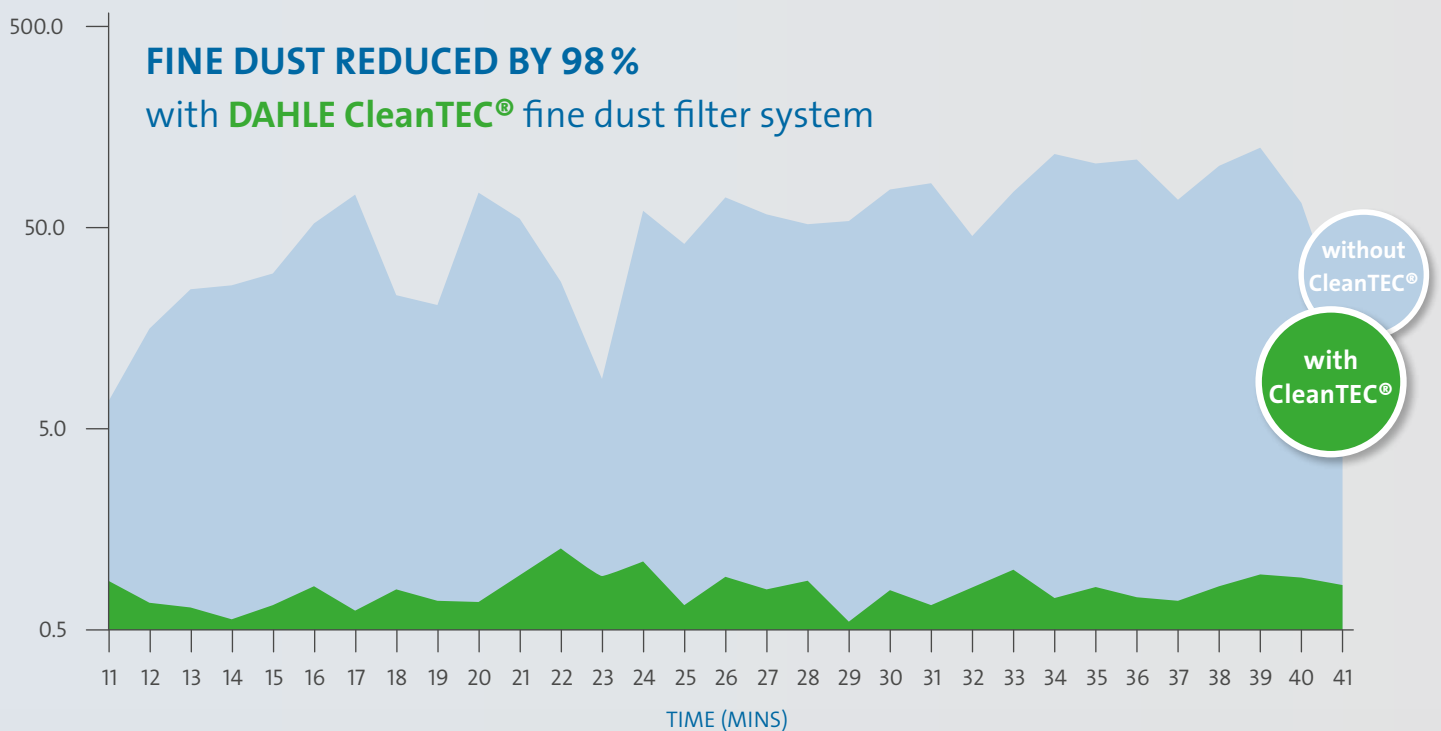

- Fine dust reduced by 98 %
- Closed system: Particles do not enter the room air
- Effective against ultra-fine particles (< 100 nm)
- Innovative Freudenberg (global technology leader in filtration) filter system "Made in Germany"
- Halogen-free filter, can be disposed of in household waste

DAHLE CleanTEC® fine dust filters achieve a reduction of fine dust by 98 % in the room air.

CONCENTRATION ($\mu\text{G} / \text{M}^3$)

Results of a measurement taken by the DMT testing institute for air hygiene on behalf of TÜV Nord (excerpt) using the example of a DAHLE 714air (CleanTEC®, 41534) and a DAHLE 714 (standard, 40514) (30x insertions of 10 sheets of paper during the measurement)

DIN 66399 for standardized data shredding

DIN 66399 (ISO/IEC 21964) standardizes the safety in data shredding.

Seven security levels are mainly defined by the produced particle sizes. The material classifications include the type of data carrier as well. The protection classes offer a three-level guidance system.

3 protection classes

Protection class 1: Normal protection requirements for internal data

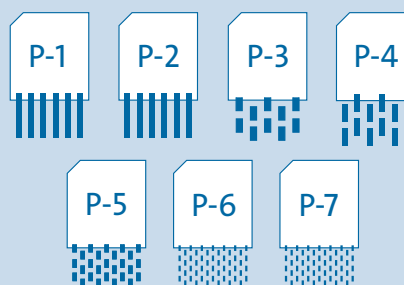

Protection class 2: High protection requirements for confidential data

Protection class 3: Very high protection requirements for especially confidential and secret data

Seven security levels

Each of the 7 security levels represents a certain size of particles into which the data is shredded. The bigger the quantity of particles, the higher the security.

6 material classifications

In addition to paper, DIN 66399 (ISO/IEC 21964) includes other data carriers which are classified accordingly:

P
Data representation in original size, e.g. paper, films, print forms

T
Data representation on magnetic data carriers, e.g. ID cards

F
Reduced data representation, e.g. micro-films, transparency

E
Data representation on electronic data carriers, e.g. chip cards

O
Data representation on optical data carriers, e.g. CDs / DVDs

H
Data representation on hard disks with magnetic data carriers

*For personal data, at least security level 3 is required.

Survey of DAHLE shredders

Besides tried and proven technologies, Dahle also places a focus on innovation and, with its own development team, is working on making its products even better by using new technologies: with engineering "Made in Germany", we give a 35-year warranty on many of our cutting cylinders!

Always the perfect combination between safety and performance – it's up to your individual requirements

PaperSAFE®

You want to shred your records directly at your desk?

PaperSAFE® shredders for individual use whether at home or in the office are exactly what you are looking for.

Products and details from page 10 onwards

ShredMATIC®

You collect your data over a longer period and shred all at the same time?

Our ShredMATIC® shredder series destroys complete piles of paper autonomously.

Products and details from page 14 onwards

Professional

You want to destroy your records in a safe manner – no matter whether directly at the desk, in the department or for even bigger user groups?

DESKSIDE

TEAM

DEPARTMENT

VOLUME PRO

Learn more on our Professional series on page 18 and find your new professional shredder in three easy steps.

Professional WASTE

Quick and efficient

Quick and efficient shredding of paper and data but no special safety against data recovery is required.

Products and details from page 20 onwards

Professional WASTE PRO

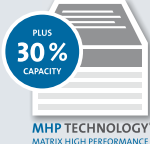

Safe and reliable with high performance

Shredders Waste Pro not only convince with efficient shredding but also with increased security (cross cut). Their high performance makes the Dahle machines particularly reliable and safe.

Product and details from page 22 onwards

Professional OFFICE

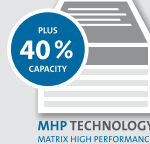

The safe combination for your office

Our Office shredders are optimised for the daily office use. They present the best combination between data security and high performance.

Products and details from page 24 onwards

Professional SECURITY

Particularly high protection against recovery

Dahle's Security shredders are the choice whenever particularly high protection against recovery is required.

Products and details from page 26 onwards

Utmost safety

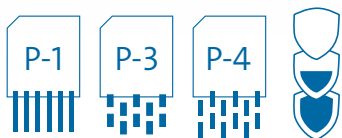

Get more information on www.novus-dahle.com and download our Top Secret brochure.

PaperSAFE®

For use in home office or small offices

- For any workspace with waste capacity from 9 to 32 l
- Broad range for individual safety requirements
- Quiet from 51 db (A)
- Maintenance- and oil-free
- Intelligent convenience functions

22319

- Intelligent document shredder for desk-side use
- Oil- and maintenance free operation
- Electronic start-stop function by integrated light barrier
- Convenient automatic reverse function
- Convenient feeding and reversing function
- Automatic motor shut down
- Electronic fill level indicator
- Visual overload signal
- Energy-saving standby mode
- Convenient swivel casters
- Pull-out waste container
- Dimensions (H x W x D): 653 x 396 x 323 mm

P-3

22312

- Intelligent document shredder for desk-side use
- Integrated light barrier for automatic start and stop
- Convenient automatic reverse function
- Convenient feeding and reversing function
- Automatic motor shut down
- Electronic "bin full" indicator
- Energy-saving standby mode
- Two separate cutters and waste containers for paper, CDs, DVDs, cheque cards and credit cards
- Shredding CDs / DVDs: 3 strips each 4.0 cm wide
- Convenient swivel casters
- Pull-out waste container
- Dimensions (H x W x D): 535 x 370 x 280 mm

P-4

ShredMATIC®

Convenient, time-saving automatic paper feed

- Efficient working by automatic paper feed instead of manual feeding of the data to be destroyed
- Shred up to 300 sheets automatically
- Fastest Autofeed shredder series on the market
- Oil- and maintenance free
- High security for destroying sensitive and confidential data by particularly small P-4 particles
- Low waste volume by particularly small P-4 particles
- Suitable for home office, single- and small offices
- Easy operation by comfortable operating panel

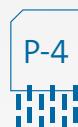

35080

- Intelligent shredder with automatic paper feed for desk use
- Oil- and maintenance free operation
- Integrated light barrier for automatic start-stop
- Convenient reverse function
- Automatic motor stop
- Automatic paper feed up to 80 sheets (80 gsm)
- Manual paper feed up to 8 sheets (80 gsm)
- Useful fill-level indicator by see-through panel
- Visual overload signal
- Pull-out waste container
- Dimensions (H x W x D) 502 x 331 x 218 mm

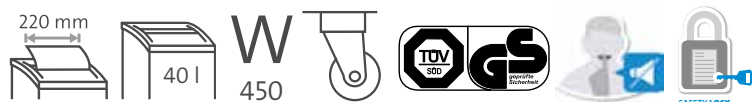

35120

- Intelligent shredder with automatic paper feed for desk use
- Oil- and maintenance free operation
- Integrated light barrier for automatic start-stop
- Convenient automatic reverse function
- Convenient forward and reverse function
- Automatic motor stop
- Automatic paper feed up to 120 sheets (80 gsm)
- Manual paper feed up to 9 sheets (80 gsm)
- Visual overload signal
- Pull-out waste container
- Separate CD-slot and waste container
- CDs / DVDs are shredded into 3 strips of 4.3cm
- Convenient swivel casters
- Dimensions (H x W x D) 585 x 376 x 280 mm

35314

- Intelligent shredder with automatic paper feed
- Oil- and maintenance free operation
- Integrated light barrier for automatic start-stop
- Convenient forward and reverse function
- Automatic motor stop
- Automatic paper feed up to 300 sheets (80 gsm)
- Manual paper feed up to 12-14 sheets (80 gsm)
- Visual overload signal
- Convenient automatic reverse function
- Pull-out waste container
- Convenient swivel casters
- Energy-saving stand-by operation
- Keylock paper feed compartement
- Dimensions (H x W x D) 642 x 432 x 355 mm

Professional

Safety and performance always perfectly combined

- Comfortable, quiet working atmosphere by extremely quiet operation
- Precise shredding by high-quality cutting cylinders
- Eco-friendly waste separation by separate waste containers for paper, CDs, DVDs and Cards
- Easy operation by comfortable operating panel
- Dahle CleanTEC® – for fine dust reduced ambient air
- Low maintenance by oil-free operation (WASTE, WASTE PRO, OFFICE)

1-2-3-concept – Three easy steps to find your new professional shredder

Dahle has revolutionised choosing the right document shredder for you: taking you to the perfect document shredder in three easy steps.

1 The application

What will your new document shredder be used for?

Choose the optimal product category for your needs.

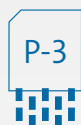

WASTE

Fast and efficient

OFFICE

Reliable, convenient and high-performance

WASTE PRO

Safe and powerful with increased waste volume

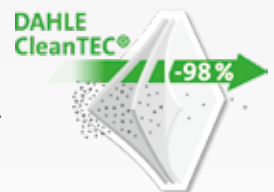

SECURITY

Exceptional protection against recovery

2 Protection against fine dust

The innovative **Dahle CleanTEC®** fine dust filter system trap hazardous fine dust where it is generated: for the good of your health.

DAHLE CleanTEC® fine dust filters achieve a reduction of fine dust by 98% in the room air. **More information on page 6.**

3 The place of use

Whether for your personal desk or the entire department – depending on the number of users and the frequency of usage, Dahle shredders are available in different sizes and power levels.

volume 30 l | 40 l

DESKSIDE

for use directly at the desk

volume 60 l | 100 l

TEAM

for smaller user groups

volume 140 l | 160 l

DEPARTMENT

for the whole department

volume 190 l

VOLUME PRO

for large user groups

WASTE

Fast and efficient

- Oil- and maintenance-free for comfortable and eco-friendly shredding
- Unique DAHLE CleanTEC® filter system for ambient air reduced by fine dust (air models)
- Energy-saving – automatic stop after 30 minutes of inactivity
- Extremely quiet operation
- Premium wooden cabinet
- Concise and convenient control panel
- Electronic start / stop function
- Convenient automatic reverse function
- Comfortable forward and reverse function
- Automatic motor stop
- High-quality cutters made of composite steel (35 years' warranty)
- Separate CD slot and waste container

OFFICE

The safe combination for your office

- Oil- and maintenance-free for comfortable and eco-friendly shredding
- Unique DAHLE CleanTEC® filter system for ambient air reduced by fine dust (air models)
- Energy-saving – automatic stop after 30 minutes of inactivity
- Extremely quiet operation
- Premium wooden cabinet
- Concise and convenient control panel
- Electronic start / stop function
- Convenient automatic reverse function
- Comfortable forward and reverse function
- Automatic motor stop
- High-quality cutters made of composite steel (35 years' warranty)
- Separate CD slot and waste container

See for yourself: Safe and efficient

By means of the shown containers (0.5l volume) you can see the respective waste volume of three shredded DIN A4 pages.

Besides efficiency, Dahle offers highest security as well, as you can see from the specifications of the respective strip- or cross cut particles that arise per shredded DIN A4 page.

The above presentation of the waste volumes is based on tests with selected models used with standard 80 gsm copy paper and is dependent on different parameters like paper quality and composition and shows three shredded DIN A4 pages in a container with a volume of 0.5l by way of example. The stated data and performance are meant to give a rough general guidance for the selection of your shredder.

Top Secret

Leading specialist

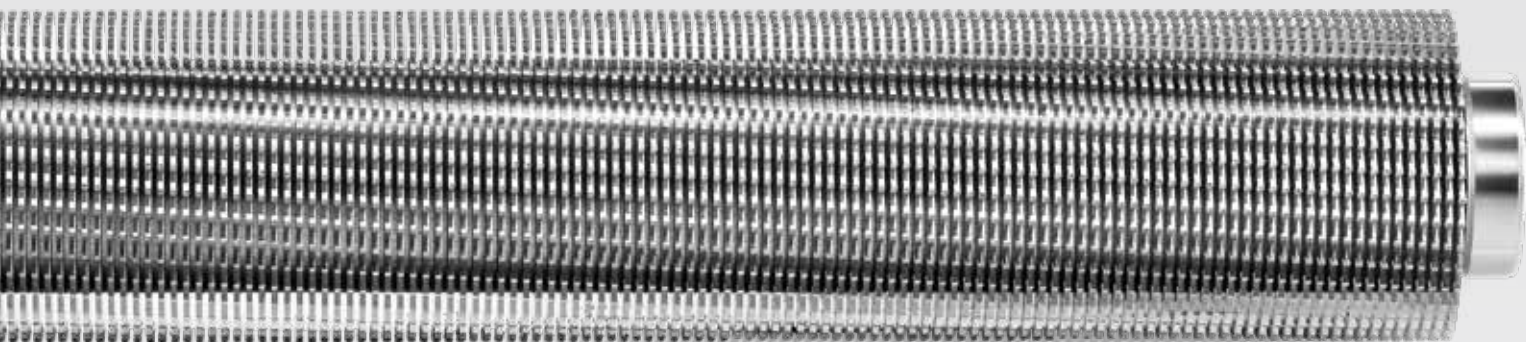

13.270 particles per sheet
with protection class P-7

With Dahle document shredders in security level P-7, one DIN A4 sheet is shredded into 13.270 particles. Reproduction of data is thus impossible according to the present state of knowledge and technology. The Dahle range includes 9 document shredders which meet these specifications and standards and are available in various sizes (40 – 190 litres). In addition, Dahle offers an equally large range of devices in security level P-6.

NSA approval for US authorities, military and security services

NSA approval for US authorities, military and security services: Data protection concerns must be observed in almost all sectors of business, administration and society. Dahle document shredders are officially listed and approved by the NSA.

German engineering: German products are known for reliability, durability and superior quality – enabled by decades of experience and expertise.

Double security

DAHLE Top Secret document shredders shred your data into unreproducible particles with maximum precision and security – and are jam-free and reliable at the same time

Security levels according to DIN 66399

The entire Top Secret range corresponds to security level P-6 and P-7 according to DIN 66399

High-performance solid steel cutting cylinders

Efficient, precise and maintenance-free data shredding thanks to sophisticated technology and design of our cutting elements

5-year guarantee on the cutting cylinders

Dahle offers a 5-year guarantee on the cutting cylinders

Production of professional document shredders since 1984

An in-house research and development centre in Germany as well as production in Europe marks out Dahle as a competent and experienced manufacturer

Utmost safety
